PERSONAL PROJECTS

NITC Track2Eat (01/2022 - 04/2022)

- This is mobile application for students and members of campus to get a idea of food items present in every hostel mess of the campus and gives the user detail description of prices . It also gives suggestions based on ratings and preferences.
- Worked in water fall environment by using flutter

NITC Hostel Mangement System (10/2021 - 11/2021)

- This a web portal to simplify the interaction between hostel manager and students. This helps the hostel manager to inform fee dues or any other notifications to the students . This also helps the student to book the hostel rooms and inform issues to hostel manager.
- This is made using PHP and SQL.
